

## RAVELIN 3D

zürich 14.06.2017

### LETTER OF RECOMMENDATION\_RAVELIN 3D

---

to may it concern

studioforma associated architects is a swiss architecture and design company specialised in developing and implementing high-end solutions in architecture and interior design. additionally, studioforma gained worldwide recognition by developing and realising retail and visual merchandising concepts for brands in the premium fashion as well watches and jewellery segment. studioforma's style is virtually unlimited and allows the designs to be individually tailored to each client's project.

our coveted client portfolio and extensive range of expertise reflects our vocation to maximise the synergy between design and functionality.

during the last fifteen years, we have learned that to get a fantastic end result in architectural 3D visualization you really needs to work with the best.

in 2015 we were requested to submit one of our most prestigious interior design project, to the european property award organization in london. at that time, find the best company for the production of all requested computer generated images was very easy. we had to look no further than RAVELIN 3D. in 2016 we were proud to have been awarded as the european property award winner for the interior design.

RAVELIN 3D is an assembly of talented, creative and professional individuals who are focused on quality and detail. i am happy to give my highest recommendation and can assure that wether the primary focus is time, quality, budget, you will not find a more qualified and proficient company in architectural 3D visualization.

with regards,

**STUDIOFORMA ARCHITECTS**

daniele simone (associate at studioforma associated architects)
