

May 6th, 2016
From the desk of: Steve Oedekerck
San Juan Capistrano, CA. USA

In my career of 13 feature films, including two computer animated feature films with an Academy Award nomination for *Jimmy Neutron Boy Genius* and two successful animated series, including the Emmy Award winning *Back at the Barnyard* series for Nickelodeon, along with having launched and run an animation studio, I have learned that to get a fantastic end result one really needs to work with the best.

When it came time to develop our hotel project, to find the best I had to look no further than Ravelin 3D. The team is an assembly of talented, creative and professional individuals who are quality and detail focused. I am happy to give my highest recommendation and can assure that whether your primary focus is time, quality, budget or all of the above, you will not find a more qualified and proficient company.

I am looking greatly forward to the next project.

Sincerely,

A handwritten signature of Steve Oedekerck, consisting of a stylized 'S' followed by a flourish.
